Re: Approved Luxury Sedan Vehicle List

Dear Valued Customers,

Attached is a list of 2022 manufactured vehicles approved by the Miami-Dade County Department of Transportation and Public Works, Passenger Transportation Regulatory Division (PTRD), to be operated under a luxury sedan license. The report below provides a listing of selected vehicles from commonly used manufactures and one or two model vehicles within their fleet with a MSRP of \$45,000.00 or more to serve as a purchase reference point. Please note that if you are interested in purchasing a vehicle that is not listed below, the vehicle must conform to the department's definition of a luxury limousine sedan or luxury sedan which is defined as:

The Department of Transportation and Public Works (DTPW) defines a luxury limousine sedan or luxury sedan as a non-metered, sedan or sport utility vehicle (SUV) that has a Manufacture Suggested Retail Price (MSRP) of \$45,000.00 or higher and has not had the manufacturer wheelbase modified. In addition, SUVs shall not exceed 136" wheelbase or have a seating capacity greater than (9) nine passengers. Vehicles with a lower MSRP will be reviewed on a case-by-case basis. Vehicles shall not be older than (10) ten model years of age.

Please refer to this information when replacing your existing fleet. Should you have any questions concerning this matter, please feel free to contact Pedro Orelle at 786-469-2370 or by email at pedro.orelle@miamidade.gov.
