# Redistricting Requirements

---

- Equal Population – All Districts should have equal population - as equal as possible
- The Maximum Deviation should not be more than 10% . Maximum Deviation is the difference between the most populated district and the least populated district.
- Districts should be Compact
- Districts should be Contiguous
- Protect Incumbency
- Minorities should be fairly represented
- ***Cannot work with one district only – the neighboring districts get affected. We need to look at the Maximum Deviation for all the districts***
