Subject: Resolution Approving the Public Works Department's Retroactive Use of the Professional Services Agreement with 62 Firms Providing for General Land and Engineering Services (OCI Project No.: E06-PW-03) for People's Transportation Plan (PTP) Projects

Recommendation

It is recommended that the Miami-Dade County Board of County Commissioners (BCC) approve the Public Works Department's (PWD) retroactive use of the Professional Services Agreement (PSA) with the 62 listed firms (OCI Project No.: E06-PW-03) for projects funded by the Charter County Transit Tax. Through this PSA, these firms will provide general land and engineering services for various PWD projects which are part of the People's Transportation Plan (PTP).

Scope

These PSA's will be primarily utilized for general land and engineering services for projects in various Commission Districts, Countywide.

Fiscal Impact/Funding Source

The fiscal impact to the Charter County Transit Surtax will be approximately \$1,500,000 over the agreement period of the PSA. The cost of the services will be charged to those particular PTP projects which require land surveying for the purpose of design and construction.

This resolution does not increase the contract dollar amount nor does it amend the terms of the contract; however, it simply allows PTP funded projects to access the pool of firms. Therefore, this resolution will not have an additional fiscal impact on the County. If this resolution is not adopted, PTP projects would have to bring each work order to the BCC and the Citizens' Independent Transportation Trust (CITT) for approval before proceeding with the land and engineering services. This process would significantly delay many of the projects in the PTP

Track Record/Monitor

The 62 firms included in the PSA have been evaluated by the Department of Business Development and the Office of Capital Improvements (OCI) and have been found to be technically qualified to provide the professional services required. The PWD contact and assigned person to monitor this contract is Mr. Luis F. Lacau, Jr., Right-of-Way Division.

Background

OCI and PWD prepared the attached Recommendation for Award for a PSA contract for all 62 firms, which was approved on April 24, 2007, under Resolution No. 487-07 by the BCC pursuant to Expedite Ordinance No. 00-104. This agreement, which is to be effective through January 23, 2010, will allow for PWD and other County Departments to utilize the subject pool of land and engineering firms. This agreement will be primarily used by PWD for the geotechnical testing and surveying necessary for the design and construction of projects funded by PTP, Quality

Neighborhood Improvement Program (QNIP), and Building Better Communities (BBC) General Obligation Bond Program (GOB). However, the resolution was not approved by the CITT, nor did they incorporate the necessary surtax language into the resolution.

In an effort to continue the success of PWD's progress with many PTP projects, PWD will be utilizing this agreement to accelerate projects. Geotechnical studies and land surveying are necessary for the initial stages of design and cost estimation for major roadway and neighborhood improvement projects. The typical estimate for geotechnical studies and land surveying is 2% of the construction cost. To date, PWD has executed 14 work orders under this agreement for PTP projects with an estimated cost of \$316,354.68

Memorandum

Date: April 24, 2007

To: Honorable Chairman Bruno A. Barreiro
and Members, Board of County Commissioners

Agenda Item No. 12(A)(4)

From: George M. Burgess,
County Manager

Subject: Resolution Ratifying the County Manager's Action in Authorizing Capital Improvement Contracts Pursuant to Section 2-8.2.7 of the Code of Miami-Dade County (the "Expedite Ordinance")

This item was amended at the March 13, 2007 Governmental Operations and Environment committee meeting to include consultant, Task Laboratories, Inc., as the awardee of the Public Works Department contract number 20060089-TASK (Exhibit A page 29). The name, Task Laboratories, Inc., was inadvertently omitted from the schedule.

Recommendation

It is recommended that the Board adopt the attached resolution ratifying the County Manager's actions taken through January 23, 2007 in expediting the capital improvement projects identified on the attached schedule (Exhibit "A"). These contracts were awarded by the County Manager prior to the certification of the election which resulted in the sunset of the Expedite Ordinance.

Scope

Several County departments will utilize these agreements for the soils, foundations and material testing and land surveying services necessary for the design and construction of capital improvement projects.

Fiscal Impact/Funding Source

The agreements are funded by various capital budget funding sources including, but not limited to, People's Transportation Plan (PTP), Quality Neighborhoods Improvement Program (QNIP), and *Building Better Communities* General Obligation Bond Program. The cost of services will be charged to the particular projects or activities requiring the services. The department requesting the land surveying services for the specific project will establish the funding source at the time the work order is issued. Work Orders will not be issued under this contract unless the specific user department identifies appropriate budgeted funds. Any work authorizations for PTP funded projects are subject to Board of County Commissioners and Citizens Independent Transportation Trust (CITT) approval.

Track Record/Monitor

The consultants on the attached Exhibit "A" are currently performing work or have performed work for various County departments at a satisfactory level as reported by the assigned project managers. For some of the consultants, this will be their first contract with Miami-Dade County. The Public Works Department staff assigned to the day-to-day operations of these 62 contracts are Luis Lacau and Carlos Lavista.

contracts associated with funded capital improvement projects identified in the approved annual capital budget (Proposed Capital Budget and Multi-Year Capital Plan) or projects subsequently included by a Board of County Commissioners resolution. The Office of Capital Improvements (OCI) processed the 62 qualifying capital improvement project awards of professional service agreements listed in Exhibit "A". Exhibit "B" is a summary of the Community Small Business Enterprise (CSBE), Community Business Enterprise (CBE), Disadvantaged Business Enterprise (DBE) and Community Workforce Program (CWF) participation for Exhibit "A" projects.
