BACKGROUND

This is a purchase for capital equipment that requires the contractor to provide and install parallelogram lifts (portable mechanical bus lifts) at several MDT bus repair facilities. The equipment is needed to replace 12 obsolete and/or non-functioning lifts and ensures that MDT's bus repair infrastructure remains operational. The lifts being replaced are beyond their operational life expectancy. The replacement lifts are portable and mechanical.

With the passage of the People's Transportation Plan (PTP), which is the sole funding source for this procurement, additional revenue generating buses have been added to the fleet. These new buses increase the frequency of repairs and scheduled maintenance work each facility must complete. Award is recommended to the lowest priced responsive, responsible bidder.

The Small Business Enterprise (SBE) Bid Preference and Local Preference was applied in accordance with the applicable ordinances. The User Access Program provision is included and the 2% program discount will be collected.
