Memorandum

Date: April 8, 2014

To: Honorable Chairwoman Rebeca Sosa
and Members, Board of County Commissioners

From: Carlos A. Gimenez
Mayor

Subject: FY 2014 Documentary Surtax Proposed Funding Recommendations Up to \$48,568,560.00

A handwritten signature in black ink, appearing to read "Carlos A. Gimenez".

This item was forwarded by the Health and Social Services Committee with a favorable recommendation on March 13, 2014, as amended to reflect the changes by Vice Chairwoman Lynda Bell and Commissioner Audrey Edmonson and the Public Housing and Community Development Department. The amendments include the following: 1) Use up to seventy-five percent (75%) of available FY 2015 Surtax funds for the FY 2014 Request For Applications (RFA) next in-line non-preservation feasible projects; 2) Fund all FY 2014 RFA next in-line projects that scored and ranked at the top of the list of Exhibit 1 in accordance with the RFA requirements, except for those projects that are determined to be not feasible; 3) Page 2, third paragraph of the fiscal impact section remove wording "in addition and in additional," to clarify that the \$6,500,000.00 million is included in the \$48,568,560.00 million funding recommendations; and 4) Page 12 – Exhibit 1, Page 5: Binder Number 14-52 Willow Lake Associates, Ltd. – the preliminary feasibility recommendations should read yes instead of no. The approved feasibility does not change the staff recommendation.

RECOMMENDATION

It is recommended that the Board of County Commissioners (Board) approve the proposed funding recommendations for up to \$48,568,560.00 identified in Exhibit 1 (attached) for the FY 2014 Request for Applications for the Documentary Stamp Surtax (Surtax) Program. Activities recommended for funding include rental housing development, rehabilitation, homeownership, and mortgage assistance activities. It is also recommended that the Board authorize the County Mayor or County Mayor's designee to use the proposed funding recommendations identified in Exhibit 1 for a two-year period and up to seventy-five percent (75%) of available FY 2015 Surtax funds for those recommendations. The FY 2015 future funds would be recommended for next in line feasible non-preservation projects from the FY 2014 Request for Applications list.

Additionally, it is also recommended that the Board authorize the County Mayor or County Mayor's designee to execute all letters of commitment, contracts, agreements and amendments pursuant to the proposed Surtax funding recommendations prior to December 31, 2014.

SCOPE

Exhibit 1 includes the proposed funding recommendations under the FY 2014 Surtax allocation and the Commission District location of the proposed project.

FISCAL IMPACT/FUNDING SOURCES

Applications for FY 2014 Surtax funding were solicited through the Public Housing and Community Development (Department) Request for Applications process. Under the FY 2014 Request for Applications, Surtax funds are prioritized, or targeted, for those projects requiring "gap" financing for developments and for public housing preservation projects.

Funding requests for Surtax totaled \$192,535,127.00, including \$73,101,106.00 for public housing preservation projects; and \$119,434,021.00 for rental housing projects. The proposed FY 2014 Surtax funding recommendations total \$48,568,560.00.

With respect to the \$40,568,560.00 proposed for rental housing development activities, the Department is also seeking authorization to allocate \$6,500,000.00 of Surtax funds to support the County's First Time Homebuyer Program, a program that provides mortgage subsidies to low-to-moderate income first-time homebuyers in Miami-Dade County. An additional \$1,500,000.00 is requested for homeowner rehabilitation activities administered by the Department of Community Action and Human Services Department.

The following table summarizes the proposed use of Surtax funding for FY 2014:

Table 1: FY 2014 PROPOSED SURTAX FUNDING ALLOCATION		
Category	Amount Requested	Amount Recommended
Rental Housing Development	\$119,434,021.00	Up to \$26,568,560.00
Public Housing Preservation Development	\$73,101,106.00	Up to \$14,000,000.00
Miami-Dade County 1 st Time Homebuyer Program	N/A	\$6,500,000.00
Homeowner Rehabilitation	\$1,500,000.00	\$1,500,000.00
Total FY 2014 Surtax:	\$194,035,127.00	Up to \$48,568,560.00

Final funding approval shall be conditioned upon a full feasibility and underwriting analysis, which will be completed prior to financial closing and the release of funds.

TRACK RECORD/MONITOR

The project will be monitored by Gregg Fortner, Director, Public Housing and Community Development.

BACKGROUND

The FY 2014 Surtax Request for Applications was issued with \$30,000,000.00 in available funding. Subsequent to issuance, it was projected that an additional \$18,568,560.00 in revenue would be available. Accordingly, the amount recommended for award to feasible affordable housing projects is \$48,568,560.00.

In keeping with the allocation strategy used by the Florida Housing Finance Corporation in its 2011 funding cycle, which set aside thirty-five percent of the State's allocation for preservation projects, similarly the Department structured its funding award recommendations with thirty-five percent (35%) set aside for preservation of Miami-Dade public housing units. The additional \$8,000,000 is included in the recommendation for direct loans to homeowners via the First Time Homebuyer Program and homeowner rehabilitation. Funds directly loaned to homeowners are exempt from the requirement of the competitive RFA process.

Public Housing Preservation

The proposed thirty-five percent (35%) set-aside for public housing preservation will be applied to the most feasible projects and will come before the Board for consideration in future actions. Feasibility will be determined by the projects' ability to secure other funding opportunities through pending applications to the Florida Housing Finance Corporation and other potential funding sources.

Preliminary Feasibility Reviews

The recommendations are based on a preliminary review of the projects financial feasibility, which was conducted by the underwriting firm of Seltzer Management Group, Inc. (Seltzer), Panama City Beach, Florida. Preliminary Feasibility Reviews were requested for all projects that had a score of 90 and above. However, it is not anticipated that available FY 2014 funding will extend to all projects that scored 90. For this reason the recommendations include the use of this list for a two-year period. Following the publication of the Preliminary Feasibility Reviews, proposers were able to respond to the reports prior to finalization of funding recommendations.

Two-Year Extended Use of Funding Recommendation List

An internal review of the Surtax Program shows that the affordable housing developer community typically submits proposals for the same projects that did not get funded in the previous cycle and/or they submit proposals for secondary and tertiary phases to previously funded projects. Therefore this item requests authority to use the proposed FY 2014 Surtax Funding Recommendations (Exhibit 1) list, for a two-year period for future award recommendations for up to seventy-five percent (75%) of the FY 2015 funds for next in line feasible non-preservation projects from the FY2014 Request for Applications. Next in-line are those projects that scored and are ranked at the top of the list in accordance with the requirements of the Request for Applications. No project shall skip or be skipped when allocating funds to the next in line, except for those projects that are determined to be not feasible. This will permit the County to fund projects that were deemed feasible without interruption and eliminate the cost and staff resources on evaluating proposals submitted in the prior year. These projects would still be subject to a full feasibility and underwriting analysis, which will be completed prior to the financial closing and the release of funds.

The remaining twenty-five percent (25%) of available FY 2015 Surtax funds for affordable rental housing development would be reserved for projects not proposed in the FY 2014 Request for Applications cycle.

and Members, Board of County Commissioners

Request for Applications Process

The FY 2014 Request for Applications was made available on August 29, 2013 and applications were due by September 17, 2013. The public was advised of the application process through posting of the notice via the Department's website and email distribution to all currently funded agencies. Prior to the issuance of the Request for Applications, the Department solicited comments on the document from the public. During the Request for Applications application process, the Department convened a technical assistance workshop on August 20, 2013, as well as provided technical assistance to agencies that requested it throughout the application period. All proposals were reviewed and scored by a selection committee in addition to a preliminary feasibility review which was conducted by an independent agency.
