BACKGROUND:

Miami-Dade County Parks, Recreation and Open Spaces Department (PROS) operates over 285 parks, manages over 13,400 acres of land, and maintains 17 miles of beaches. PROS seeks a consultant committed to building a healthier, more vibrant, and livable community through the implementation of the Parks and Open Space Master Plan.

Zoo Miami is the largest and oldest zoological garden in Florida and the only sub-tropical zoo environment in the continental United States. Due to the unique climate in South Florida, Zoo Miami is able to sustain and call home to a wide variety of animals from throughout the world. Zoo Miami is an award-winning entity accredited by the Association of Zoos and Aquariums (AZA), which requires a meticulous application and inspection process to meet and exceed the AZA's standards for animal health and care.

Currently, Zoo Miami occupies approximately 750 acres, from which 340 acres are currently developed, and is called home to approximately 3,000 animals representing over 600 different species that are entirely cageless.
