### **Capital Assets**

Overall, MDPD has 20,049 capital equipment assets with a net book value of \$97,829,489.

MDPD currently has a total of 1,776 vehicles under active loans pursuant to the Master Lease Agreement with Miami-Dade County. According to the terms of this agreement, the transferability of these vehicles is restricted until the full repayment of the loan. Once the vehicle loan is paid off, the vehicle becomes transferable.

### **Non-Capital Assets**

INFORMS data shows MDPD has 12,806 non-capital equipment items with a total initial purchase value of \$25,365,186. This number is based on information that was existing in INFORMS at the time this inventory was completed. All equipment inventoried to date is used 100% of the time for statutory functions, and there is no restriction on the transfer of any of this equipment.

### **Active Contracts**

The inventory identified 129 contracts used by MDPD; 25 are exclusive to the Department and the remaining 104 are Countywide, with a total remaining departmental allocation of \$164,994,111.

### **Grants**

MDPD currently has 56 active grants.

MDPD reached out to the various grantors, and many advised the Sheriff's Office should enter into a grant sub-awardee agreement with the County. 20 of the existing grants, which will remain active past January 7, 2025, will be managed through grant sub-awardee agreements. The County will assign a staff member to oversee these grants, with the Sheriff's Office serving as the subgrantee.

These sub-awardee agreements will be effective for the duration of the grants. Once a grant expires, the Sheriff's Office will take over the responsibility of independently establishing and managing the grant.

### **Licenses**

MDPD currently holds 206 active licenses.

### **Associated Asset Liabilities**

The Department currently has 282 open invoices totaling \$4,675,433 and 718 dispatched purchase orders with total encumbrances of \$21,913,712.
