PortMiami

A Message from Daniella Levine Cava, Miami-Dade County Mayor

PortMiami is one of the fastest-growing ports in the nation, an industry leader, and a massive economic engine for Miami-Dade County. Its more than 334,000 direct, indirect, and related jobs provide family-sustaining wages. And its \$43 billion in annual economic activity provide ample opportunities for businesses of all sizes.

A leader in north-south trade, PortMiami's exceptional global connectivity speeds consumer goods and supplies into the port and facilitates access to world markets for all goods produced in Florida. In 2023, the port recorded 1,098,322 twenty-foot equivalent units (TEUs), surpassing the one million TEU mark for cargo for its ninth consecutive year.

Beyond powering trade, the port remains the undisputed Cruise Capital of the World. It welcomed almost 7.3 million cruise vacationers in 2023, breaking its previous record of 6.8 million. This growth is supported by a vast and diverse workforce across many industries, from tourism to maritime services to transportation.

Over the next five years, PortMiami plans to invest more than a billion dollars to further enhance its position as the top cruise departure destination to the Caribbean, Mexico and beyond. These investments ensure that PortMiami will continue to be an innovative and sustainable cargo gateway.

The port's vision embodies a shared commitment to Miami-Dade and its residents. We are united in providing excellence to all who travel and do business with our port. It is my honor to steward this remarkable economic engine.

A Message from Port Director Hydi Webb

PortMiami is the world's leading cruise port and an iconic trade gateway. It is my pleasure to serve as its Director and CEO, and to work together with port operators, partners, and stakeholders to maximize benefits for our Miami-Dade community while surpassing customer expectations.

The port's location at the heart of the Western Hemisphere and the juncture of north-south and east-west trade routes makes it a critical hub for international trade and commerce. But its commitment to its communities, its capital investment in the future, and its leadership in technology, sustainability, and resiliency, truly help raise the level of port success.

Some of our top newsmakers over the last year included bunkering Seaboard Marine's first liquefied natural gas cargo vessel, the 1,000 twenty-foot equivalent unit Motor Vessel *Seaboard Blue*; being honored by the North American Marine Environment Protection Association with the 2023 Marine Environment Protection Association with their 2023 award in the ports category; welcoming global carrier Zim Shipping Company's new Colibri Xpress service; and hosting the 15,536-TEU CMA CGM *Osiris*, a neo-Panamax vessel that was the largest container ship to ever dock at PortMiami.

The port's future is bright. The 2023-2024 cruise season will bring eight new cruise ships, a remarkable accomplishment for what is already the world's busiest cruise port. On the technology front, the port is finalizing its Shore Power Program, allowing the cruise industry to ramp up its commitment to Miami-Dade through reduced air emissions. And container cargo volumes will continue to surge as we invest in innovation and efficiency.

The port is committed to aligning its goals with the goals of its key stakeholders and that takes a great deal of communication and collaboration. Please accept my heartfelt thanks for your interest, hard work, and dedication, helping our seaport succeed and generate prosperity for our region. 🌊

PortMiami's Mission

PortMiami's goal is to operate and further develop the world's leading cruise port and fastest-growing container port in Florida in a socially, environmentally and economically sustainable manner.

PortMiami's Economic Impact

PortMiami is a vital economic engine of Miami-Dade County, contributing \$43 billion annually to the state's economy while supporting 334,500 jobs in Florida.

CUSTOMER DRIVEN – WHITE GLOVES AND CUTTING-EDGE COLLABORATION

Relationships Matter

At PortMiami, relationships matter. The Port recognizes it is only as strong as its people and partners. So, each and every PortMiami employee is trained and tasked with making customer satisfaction a top priority.

That means that collaboration with public and private partners – in an effort to continually improve efficiency, effectiveness, velocity, reliability, sustainability and costs – is on the agenda, day in and day out.

The Port and its maritime and supply chain partners are committed to

ensuring that the gateway gives white-glove treatment to every customer, best serving their needs now and for decades to come.

Hard Work, Done Well – Growing the Port the Right Way

It isn't just about building a brand. PortMiami has long been renowned as Cruise Capital of the World and Global Gateway. It is also about providing the infrastructure, cranes, equipment, and services that customers need in order to move forward, while generating massive economic and social benefits for the region and beyond.

In recent years, the Port has met unprecedented challenges, including vessel upsizing, shipping line re-alignments, supply chain disruptions, and the closure of the cruise industry during the peak COVID era. It has emerged even stronger. The Port is leaner and better equipped than ever, with enhanced cruise facilities, big-ship ready cargo facilities, and improved inland connectivity and services that integrate innovation and technologies along with old-school sensibilities.

Since the beginning of the 21st century, more than \$1 billion has been invested in port improvement projects. A deep-dredge was completed to welcome increasingly larger cargo vessels. Super post-Panamax ship-to-shore gantry cranes were put in place to effectively work the new vessels. The port's carbon footprint has been reduced through advancements like the introduction of electric rubber-tired gantry cranes that move containers more efficiently, the reactivation of PortMiami's on-port rail that provides a fuel-efficient alternate cargo transportation method, and a fast-access underwater tunnel to quickly feed port cargo and passenger traffic to and from the interstates, while removing traffic from downtown streets.

PortMiami does everything it can to set the stage with the right assets, resources, and customer-centric business practices in place, but its workforce and other port partners are the ones who deliver the true port experience. Their hard work and vision and quest for excellence has made PortMiami an integral and indispensable part of the local community and a first choice for the cruise industry and many global supply chains.

PortMiami welcomes comments and questions via email at POMservice@miamidade.gov and by phone at 305-347-4874. Port users may also connect through any of the social media platforms and other means detailed on page 6. 🌐

EXCEPTIONAL INFRASTRUCTURE ATTRACTS CARGO

PortMiami is a critical link in making the supply chains that serve South Florida industrial and commercial enterprises speedy and efficient.

The Blueprint

The Port continually invests in its cargo assets, guided by short and long term strategic plans.

In 2023, the U.S. Department of Transportation awarded PortMiami a \$5 million Rebuilding American Infrastructure with Sustainability and Equity (RAISE) grant to complete portions of its Master Plan. The RAISE grant will assist in funding planning and design studies for carbon neutralization of on-port operations and the development of an inland cargo center to handle 50 percent more cargo volume, among other projects.

Terminal Options

Being able to handle large cargo ships and a lot of passengers, means being able to move a lot of cargo and people in and out of the port in a short window of time. To optimize intermodal connectivity, the Port partnered with the state of Florida and Miami Access Tunnel to construct

a fast-access tunnel with a direct link to the interstate highway system. Today, it is used by millions of vehicles per year and removes over 80 percent of traffic from downtown Miami streets.

The Port's three marine cargo terminals provide an enviable range of options for ocean carriers and shippers. The operating companies are: Port of Miami Terminal Operating Co., LLC (POMTOC), Seaboard Marine, and South Florida Container Terminal (SFCT). Competition increases efficiency and productivity. The terminals continue to upgrade assets and optimize the use of their footprints, enhancing cargo velocity, reliability, and efficiency. They also carefully align their operations with environmental, social, and economic factors.

SFCT added 12 new electric rubber-tired gantry cranes in 2023, bringing the total number of eRTGs to 18. The eRTGs are fully electrified, producing zero emissions. They were the first of their kind in the United States.

POMTOC was developed in 1993 to improve operating efficiency by consolidating four stevedoring companies into a single state-of-the-art terminal. Economies of scale are generated by its effective use of land, equipment, and personnel.

Seaboard Marine recently completed construction on 50.5 acres of surface

and drainage improvements at PortMiami. The project is one part of a multi-phased infrastructure improvement program for Seaboard's cargo yard.

Partnering with PortMiami, Seaboard's long-term improvement program will enhance security, capacity, and efficiency at the 87-acre Seaboard Marine terminal.

The next step in the project includes berthing upgrades and expanded use of refrigerated container racks for temperature-controlled cargo, including flowers, pharma, seafood, and fruits and vegetables.

PortMiami has been working with Florida East Coast Railway (FEC) to move cargo in and out of the seaport via railroad. The rail connection plays a crucial role in the efficient transportation of cargo goods through South Florida and into parts of the United States. With three, 3,000-foot on dock rail connections, 70% of the U.S. can receive their goods from PortMiami in one to four days. One example of the rail service is the Thread Express. The Thread Express is an intermodal stack train service operated by FEC between PortMiami and a rail hub in Charlotte, North Carolina. Before the Thread Express companies, like Hanes would truck their containers over streets and highways. Today, the Thread Express has become the most time-efficient option for moving cargo between Florida and North Carolina.

PREEMINENT CARGO TERMINALS

Ocean carriers and shippers like having cargo terminal options. At PortMiami, there are three marine cargo terminals, operated by Port of Miami Terminal Operating Co., LC (POMTOC), Seaboard Marine, and South Florida Container Terminal, LLC (SFCT).

Friendly competition increases efficiency and productivity. The terminals continue to upgrade assets and intensify the use of their freight footprints, to enhance cargo handling velocity, reliability, and efficiency, carefully balanced with environmental, social, and economic factors.

South Florida Container Terminal (SFCT), for example, welcomed 12 new electric rubber-tired gantry cranes in 2023, bringing the total to 18. These ERTGs are fully electrified, producing zero emissions. They were the first of their kind in the United States.

Port of Miami Terminal Operating Company (POMTOC) was developed in 1993 to improve operating efficiency by consolidating four stevedoring companies into a single state-of-the-art terminal for more effective use of land, equipment and personnel. POMTOC is one of the three terminals operating at PortMiami.

SEABOARD
MARINE

SFCT
South Florida
Container Terminal

Seaboard Marine recently completed construction on 50.5 acres of surface and drainage improvements at PortMiami. The project is one part of a multi-phased infrastructure improvement program for Seaboard's cargo yard.

Partnering with PortMiami, Seaboard's long-term improvement program will enhance security, capacity, and efficiency at the 87-acre Seaboard Marine terminal.

The next step in the project includes berthing upgrades and expanded use of refrigerated container racks for refrigerated cargo that includes flowers pharma, seafood, as well as fruits and vegetables. ✨

SFCT welcomed six new eco-friendly electrified rubber-tired gantry cranes. These eRTGs feature a 100-percent electric power system that produces no emission and will be the first of its kind in the United States.

ALL MARKETS SERVED AND SOURCED

World Leaders Call Port Miami

The world's leading cargo lines all call at PortMiami. They are supported by the Port's maritime infrastructure and supply chain community, to ensure consumers and businesses get what they need, when they want it, and to expedite delivery of cargo from the United States to destinations the world over.

Percentages of 2023 PortMiami trade by region, as measured in twenty-foot-equivalent units (TEUs), the standard industry measure for containerized cargo. Figures are for the fiscal year ended September 30, 2023.

Foreign-Trade Zone No. 281 extends U.S. Customs-related benefits throughout a large portion of Miami-Dade County.

SAVINGS AND STREAMLINED LOGISTICS FROM FTZ NO. 281

Importers are amassing outstanding benefits by operating in Foreign Trade Zone (FTZ) No. 281. Businesses with the right mix of commodities, values, manufacturing waste, duty rates, number of “entries,” and proportion of exports to re-exports are racking up savings. That includes third-party logistics providers (3PLs), freight forwarders, distribution centers, manufacturers, shippers and more.

Along with having room to grow, fast access to market, and a large,

skilled workforce, the FTZ is one of the top factors attracting big retailer distribution centers to Miami-Dade and South Florida.

An FTZ is a secured site located within the U.S., but technically considered outside of Customs’ jurisdiction. It allows businesses to defer, reduce, or even eliminate costly U.S. Customs’ duties on imported products.

PortMiami, in 2012, established and continues to operate as a grante Foreign Trade Zone no. 281, where nearly 100 businesses already operate. Sites are active in much of Miami-Dade County.

This is important, because one of the greatest benefits of having an FTZ is that, under Customs’ new Alternate Site Framework, a site can be activated and located almost anywhere in the County. This encourages commercial and industrial activity, investment, and employment, in neighborhoods that need it.

While most port freight strategies are about moving cargo in and out as quickly as possible, the Port’s FTZ strategy is about stopping the merchandise, for a while, storing it, and conducting some value-added activity before export or after import to benefit the community with jobs and income and spending. That is a best practice at PortMiami.

For more details on how to benefit from FTZ No. 281, call (305) 347-4922, send an email to FTZ281@miamidade.gov or go to www.miamidade.gov/portmiami/foreign-trade-zone-281.asp

COVETED FOR CRUISE

The warm turquoise waters and gentle offshore breezes of Miami call out to a steady stream of visitors. Sunny climes, global culture, and unlimited options for outdoor adventures and excitement keep people coming back. PortMiami is nestled in the midst of these wonders.

Long known as the Cruise Capital of the World, PortMiami is a well-appointed hub and unparalleled departure point, with major cruise lines sailing to the Bahamas, Mexico, the Caribbean, and further afield. The Port is perfectly situated just minutes from Miami Beach and Downtown Miami. It is well-served with easy access to the interstate system and to Miami International Airport, the busiest U.S. gateway for international passengers.

In 2023, PortMiami set a new passenger record by welcoming 7,299,294 vacationers. This shattered its previous record set in 2019 with 6.8 million passengers. It also celebrated its busiest cruise passenger day in history. On Sunday, April 9, 2023, the Port welcomed 67,594 guests, a 12.7% increase over the previous record, set earlier in 2023.

2023 Statistics at a Glance

Cruise Passengers:	7,299,294
Cruise Lines:	23
Cruise Ships:	60
Cruise Vessel Calls:	1,125

The Port works hard to ensure its rapid growth is well accommodated, continuously rolling out innovative and exceptional services, and a cascade of capital investments that pave the way for passenger surges.

HEADLINE NEWS

Royal Caribbean's New Icon

In January 2024 PortMiami entered a new era in cruising. It welcomed Royal Caribbean Group's *Icon of the Seas*, the largest cruise ship in the world and the most sustainable ship in Royal Caribbean's fleet to date. The vessel will homeport year round in Miami.

The ship is the first in the Icon Class. It boasts fuel cell technology and is powered by liquefied natural gas. In addition to its energy efficiency initiatives, it introduces industry-leading environmental programs on board, like the first waste-to-energy plant at sea and shore power connection.

Passengers will be thrilled with unique features such as 40 ways to dine and drink, 28 styles of accommodation, 20 decks, nine whirlpools, eight neighborhoods, seven pools, and six waterslides.

MSC's Mega Plans

MSC Cruises, the world's third largest cruise brand, is completing its new state-of-the-art terminal. This mega facility is expected to be North America's largest cruise terminal. It will serve as many as three latest-generation ships simultaneously, with up to 36,000 travelers transiting each day.

MSC's terminal will be able to accommodate the company's largest ships, which also happen to be their environmental high-performers. Most of the MSC vessels will be able to plug into the local power grid, dovetailing nicely with the Port's plans for shore power connectivity. The terminal is expected to be completed in 2024.

The LNG-powered *MSC World America*, second in the company's innovative new World Class, will be launched in 2025 and carry out weekly 7-night Caribbean itineraries from the new terminal.

The Cruise Line Roster

PortMiami welcomes:

Carnival Cruise Line www.carnival.com	Phoenix Reisen Cruises www.phoenixreisen.com

Growing Niche for Virgin

PortMiami is home to the striking new Terminal V, launched in 2022, with its geometric and palm grove-inspired architecture, and Virgin Voyages first two vessels, the *Scarlet* and *Valiant Lady*. Both lady ships sail on a series of cruises to the Eastern and Western Caribbean.

Carnival's Third Terminal

Cruise Terminal F is Carnival's largest cruise terminal in North America, and its third at PortMiami. Opened in 2022, the terminal's sweeping design was developed with efficiency and flexibility in mind. Terminal F is home to the *Celebration*. With innovative features, including environmentally friendly LNG-fueled powerplants, the *Celebration* is part of the line's colossal Excel Class. 🌐

Norwegian Cruise Line's Terminal B, known as "The Pearl of Miami," opened in July 2021. The inspiration for the state-of-the-art, LEED Gold building came from the sea, specifically a jewel and the jewel is the pearl. The all-glass, oblong terminal features three arcing see-through domes, which can accommodate up to 5,000 passengers.

Eight New Ships

The newest cruise ships for the 2023-2024 cruise season:

- Oceania Vista
- Carnival Cruise Line Costa Venezia
- Scenic Eclipse II
- Crystal Cruises Serenity
- MSC Cruises Explora I
- Norwegian Cruise Line Norwegian VIVA
- Regent Seven Seas Grandeur
- Royal Caribbean Group Icon of the Seas

PortMiami's layered, collaborative approach to security includes a 24/7 control center offering numerous strategic surveillance camera views.

EVER VIGILANT, EVER RESILIENT

Layers of Protection

The safety and security of everyone who works or visits PortMiami and its neighboring communities is among our highest priorities. Keeping a vital and active metropolitan seaport safe in today's world is a monumental task. Threats can emerge from a wide variety of places and effective mitigation requires the integration of various technologies, the coordinated teamwork of federal, state, and local agencies, and the active participation of all stakeholders.

Security begins with our staff, tenants, labor, and the entire maritime community working together to ensure a safe environment for all. These vital contributors work with PortMiami's Safety and Security Division in unison with the United States Coast Guard, and other local, state, and federal law enforcement partners to mitigate potential threats. Together we form a multi-layered barrier that reduces risks and maintains safe operations.

During high-threat responses, PortMiami employs a proven Unified Command approach that effectively manages incidents regardless of scope. This approach can provide more effective boots on the ground than any single agency. It is made up of representatives from the U.S. Coast Guard, U.S. Customs and Border Protection, Miami-Dade's Fire and Police Departments, the Florida Department of Health, and the Port's Safety and Security Division. The Unified Command structure is dynamic and flexible, which facilitates input from additional agencies with specific expertise to better manage a concern. For example, over the last few years both the Department of Health and Centers for Disease Control became primary contributors in preserving crew, employee, visitor, and community well-being as the nation worked through the COVID-19 pandemic.

With the collaboration of all our stakeholders and using strategic partnerships, PortMiami effectively leverages its resources for various port-related initiatives with every member of the Unified Command and other agencies, including the Florida Fish and Wildlife Conservation Commission, the Florida Department of Law Enforcement, and the U.S. Department of Agriculture. Together we all play an integral part in making sure the port runs smoothly and safely.

Seamless Operations

When done well, exceptional safety and security programs become a key component of good customer service. It is PortMiami's goal to integrate the welfare of all stakeholders into our daily operations in a seamless manner and to provide the highest level of protection available while improving the overall customer experience.

Innovation Heightens Vigilance, Hardens Port

PortMiami's collaborative efforts aim to build compliance and preparedness, reduce threats, and harden the Port to any natural or man-made dangers, to include cyber-attacks and terrorism. Some important tools in enhancing safety, security, vigilance, and response capability are joint threat-based drills and exercises, and the implementation of state-of-the-art technologies with prevention strategies.

Anyone witnessing suspicious activity is encouraged to contact the Seaport Command Control Center by calling 305-470-3880 or emailing seffc@mdpd.com, per the Department of Homeland Security. Emergencies should always be called in to 911 immediately with a request to speak to Miami-Dade County Dispatch. For non-emergencies, call 305-329-4049. 📞

CHAMPION OF THE ENVIRONMENT

To safeguard the environment for generations to come, sustainability is now the watchword of every port operation, facility, asset and activity. This is PortMiami's path to the future. The Port intends to ensure that what it does today leaves a clear legacy for tomorrow.

Community Centric Vision Locked In

The Port's environmentally sound practices and green initiatives are a broader part of its community-centric vision. Its sustainability initiatives address community, environmental, and economic goals simultaneously. This approach better protects Miami's water, land, and wildlife resources in a way that reflects community priorities.

PortMiami's green investments include mitigation projects, such as the 63-acre red mangrove enhancement program at North Miami-Dade County's Oleta River State Park, coastal ecosystem protection and recovery, and broad-based Reduce, Re-use and Recycle campaigns. It invests in earth-friendly seaport assets and extends that investment across the community and coastal waters. The Port believes that working hard to sustain air, water and land resources is the only way forward.

Leadership in Marine Environmental Protection

PortMiami's efforts have been recognized nationally. In 2023, it was honored by the North American Marine Environment Protection Association with the prestigious 2023 Marine Environment Protection Award for ports, recognizing innovative and extraordinary effort to preserve the marine environment.

At its roots, the Port's green philosophy aims to protect the natural environment within which it operates. Healthy sea grasses, diverse marine life, and clean ocean breezes can successfully coexist with the built environment.

It takes broad collaboration to ensure that ongoing success. Recent environmental partnerships include reef recovery, seagrass restoration and wetland restoration projects.

The successful outplant of 10,000 Acropora (staghorn) coral colonies to natural reef systems both north and south of Government Cut through a grant with the University of Miami Rosenstiel School of Marine, Atmospheric, and Earth Science; 16.6 acres of seagrass restoration north of the Julia Tuttle Causeway in Biscayne Bay; and Oleta River State Park mangrove wetland restoration project, which restored over 42.5 acres and enhanced approximately 20 acres of mangrove habitat.

Prioritizing Reefs

PortMiami and the University of Miami Rosenstiel School of Marine, Atmospheric, and Earth Science (coral reef research and restoration programs) are collaborating on reef recovery.

Reefs provide essential habitat for multiple ecosystems and help stabilize the seabed. PortMiami has funded the collection, cultivation in a coral nursery, and successful outplant of more than 10,000 Acropora

(staghorn) coral colonies. This is in addition to the relocation of more than 1,000 coral colonies to the natural reef system.

The reef project's exceptional outcomes include:

- 1.65 acres of artificial reef at the Biscayne Bay Julia Tuttle Artificial Reef Site
- More than 9 acres of off-shore artificial reef south of Government Cut
- Approximately 0.5 acres of off-shore artificial reef flourishing north of Government Cut

Cutting the Carbon ... on Land

The Port is protecting fragile coastal ecosystems in a meaningful way by lowering emissions across all facilities.

- Electric Cranes: All of the Port's ship-to-shore container cranes are now electric, zeroing out emissions.
- South Florida Container Terminal (SFCT) Cargo Yard Densification (Phase 2): This project upgrades the cargo yard with stormwater and pavement improvements so that existing diesel cargo handling equipment can be replaced with 12 additional electric rubber-tired gantries (eRTGs) at a 2:1 ratio, increasing yard capacity on the same footprint. Project completion is expected by September 2025. The Port completed the Phase 1 project in January 2021 and SFCT now has six operational eRTGs, which replaced 12 diesel top loaders.
- Seaboard Marine Cargo Yard: Between 2019 and 2021, seven utility tractor rigs (UTRs) with Tier 1 engines were replaced with new Tier 4 engine tractors, two Top Loaders and one 8,000 lb. diesel forklift, partly funded by a FDEP grant to reduce GHG emissions.
- South Florida Container Terminal Cargo Yard: In October 2020, SFCT replaced 36 of its cargo terminal UTRs that had Tier 1 engines with new UTRs powered by Tier 4 engines to reduce greenhouse gas emissions. Also, the new cargo gate opened in May 2021 to increase cargo yard efficiency and minimize diesel emissions by decreasing truck idling times to, from, and within the yard.
- Tunnel Benefits: The PortMiami Tunnel eliminated some 22,000 vehicle trips per day on downtown Miami streets, facilitating significant reductions in emissions while decreasing congestion.

Technology is also helping cut emissions. The Radio Frequency Identification System, for example, helps identify when a container enters a cargo terminal, communicates with an eRTG in the terminal, and helps move transport trucks in and out more quickly, decreasing idling time.

Similarly, the Port's Building Management Systems deploys LED lights, motion sensors, and monitoring to greatly reduce electrical use in cruise terminals and parking garages.

... And at Dock

PortMiami is tackling a significant global issue – air emissions from vessels using primary engines at dock. In a new partnership with Carnival Corporation, MSC Cruises, Norwegian Cruise Line, Royal Caribbean Group, Virgin Voyages, and Florida Power and Light Company, PortMiami's Shore Power Program will provide shore power at five cruise terminals, allowing up to three vessels to plug in at any given time.

At-dock emissions are eliminated.

The Port received \$2M in DERA grants and \$12.25M from state partners toward this innovative effort.

Green Design, Vessels, Infrastructure

- LEED: All new construction and renovations meet or exceed the U.S. Green Building Council's Leadership in Energy and Environmental Design criteria. For example, Cruise Terminal F is LEED Silver certified.
- LNG-powered Vessels: The Port's first homeported Liquefied Natural Gas (LNG)-powered vessel (with shore power) berths at the newly expanded Cruise Terminal F.
- MSC Shared Terminal: This innovative LEED Silver Certified terminal will be the first of its kind and have the ability to process up to three mega cruise vessels simultaneously from two different cruise lines. It opens in March 2024.
- Cruise Terminal G Redevelopment Project: The redeveloped terminal will achieve at least LEED Silver Certification and is scheduled to be completed by Fall 2026.
- Cruise Terminal V: This terminal is LEED Gold certified and opened in February 2022.
- All Terminals: All designs address potential sea-level rise in accordance with the Unified Sea Level Rise Project by the Southeast Florida Regional Climate Change Compact.
- Water and Wildlife: Stormwater infrastructure has been enhanced for water quality and quantity, and there are now manatee grates at all outfalls to help protect the threatened species. 🐢

Parking

Parking is conveniently located with access to all cruise terminals, with facilities including the Terminal A Garage, Terminal B Garage, Garage C, Garage D, Garage G, Garage J, and Flat Lot E. Cruise passengers benefit from almost 8,600 parking spaces at PortMiami, which has an automated parking system that facilitates efficient and accurate payment processing. Designated disabled permit parking spaces are available at each garage.

*Discover Our Experience in Freight Services:
we have been in the logistics industry for 25 years.*

Sea Freight: the best choice for transporting large volumes of cargo at cost-effective rates.

Container Drayage Services: we owned 20's, 40's, 45's and Tri-Axle Chassis and offer real-time fleet Safety Monitoring, Freight Transloading, Yard Storage & Cargo Hazmat.

FTZ Warehousing: with key centers in Miami and Panama, we have a global perspective to provide the best solutions.

ALPHA CLADDING LLC

A BUILDING'S SHIELD MADE WITH ART...

Alphacladding LLC specializes in custom glass facades that are modern, elegant, and energy efficient, giving each of our projects a sophisticated look that meets the expectations of Owners and Architects.

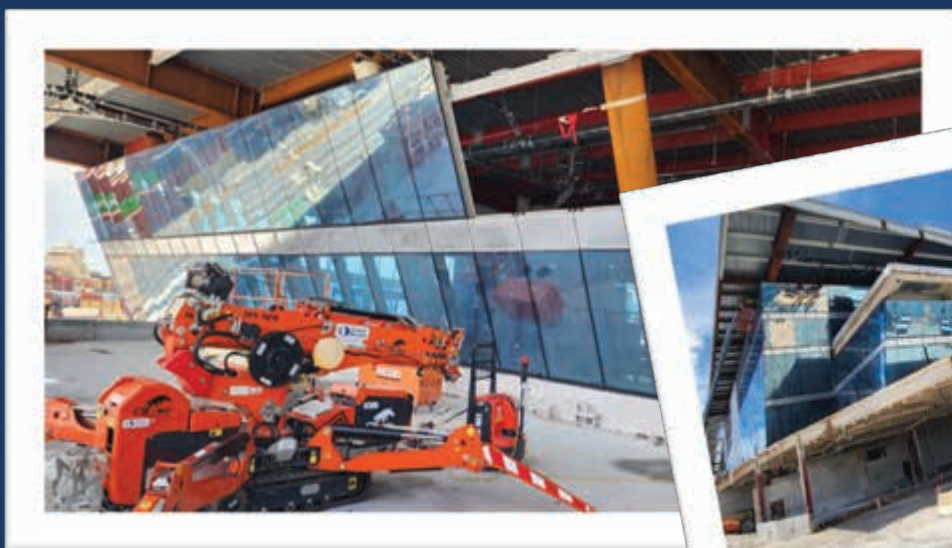

ROYAL CARIBBEAN TERMINAL "A"

VIRGIN CRUISES TERMINAL "V"

NCL TERMINAL "B"

MSC TERMINAL IN PROGRESS

ELLER-ITO IS NOW PART OF PORTS AMERICA.

ELLER-ITO
Stevedoring Company, LLC

Miami's leading stevedore container handling equipment company has joined forces with the nation's premiere Marine Terminal Operator and Supply Chain Logistics Provider. The same reliable crew and best-in-class service—now part of the Ports America team.

PORTS AMERICA

**WHERE LEGACY
MEETS THE FUTURE**
