He introduced the three proposed grant programs: the Revitalization and Rehabilitation Program, the Business Attraction and Expansion Program, and the Small Business Technology and Innovation Program. He outlined the eligibility criteria for each program, including requirements such as years in business and the necessity of being a for-profit entity. Leroy also provided details on the funding amounts available and the specific areas each program would cover.

After addressing several questions from board members regarding funding details, Leroy clarified that the grant programs have always been based on match funding. He then described the rollout plan, which includes: key dates, information sessions, application distribution, and door-to-door canvassing. Mr. Jones also referenced the multilingual (English, Spanish and Creole) flyers distributed at the meeting, which contain all relevant information about the grant applications, and emphasized that his team is available to meet with community members individually if needed. WHO WE ARE & WHAT WE DO

ABOUT US

We are a housing nonprofit with a mission to repair homes, revitalize communities, and rebuild lives. For over 30 years, we have provided **critical home repairs and modifications** to low-income homeowners, **free of charge**.

- Improve mental and physical health
- Foster independence
- Prepare homes for natural disasters and mitigate impacts
- Increase upward mobility for homeowners and future generations
