Ms. Hege presented the mission statement of the CRA and presented the short-term infrastructure actions which coordinate well with FDOT for preliminary roadway improvements. Board Member Gene Lomando mentioned the need for more parking along the corridor.

Ms. Hege also mapped out the unsafe structures in the Area and explained how they can be remediated and activated. Further, Ms. Hege also brought up the budget component and listed financing opportunities, such as land acquisition and community benefit agreements, development of a master plan, identification of potential redevelopment sites, and land acquisition strategies.

B. Prioritization of short-, medium-, and long-term goals– Ms. Hege listed the short term and long-term actions for land acquisition, mixed use/private partnerships, mobility hubs, affordable housing, parks, access to water, healthcare institutions and workforce development, partnerships, food and culture, water and sewer connectivity in the area, and zoning changes to promote development.

Ms. Andrea Dopico Rivera relayed that the Miami-Dade County Water and Sewer Department (WASD) mentioned that they will be mandating sewer connection and allowing home/business owners in the CRA area up to 90 days to arrange connectivity; if they do not, there will be code enforcement violations which could be placed on the properties/businesses. Several board members expressed concern over this; citing monetary concerns for the residents. Ms. Cao stated that the fee for each business could potentially be approximately \$30,000 and if it's the Board's wishes, they can assist with the connections.

Ms. Cao stated WASD was going to confirm the number of properties that would need to connect. The Board expressed their desire to help the property owners who would be affected to provide assistance to them.

Ms. Hege asked for board members feedback on their priorities, to which Mr. Lomando suggested that board members take the time to review all the information from the meeting and bring back their list of priorities to the next meeting. Ms. Hege suggested the board members e-mail their priorities list to staff, so that formulation of the upcoming budget could begin.

#### I. N.W. 7TH AVE COMMUNITY REDEVELOPMENT AGENCY BACKGROUND

Community Redevelopment Agencies (CRAs) play a vital role in revitalizing and enhancing urban areas that may be struggling with economic decline, disinvestment, or infrastructure challenges. Established to foster sustainable community development, CRAs implement strategies that focus on the removal of slum and blight, improving housing, creating jobs, and enhancing public spaces. By collaborating with local governments, businesses, and residents, CRAs aim to transform neighborhoods into vibrant, thriving environments. These efforts not only address immediate issues but also promote long-term economic growth and redevelopment, making them essential players in the landscape of urban development.

In order to eliminate and prevent the spread of blighted conditions and stimulate and support the redevelopment of the N.W. 7th Avenue corridor, the N.W. 7th Avenue Corridor Community Redevelopment Agency (commonly referred to as the "CRA," "Redevelopment Area," "Agency" or "Uptown Avenue 7") was created and its Board of Commissioners (Board) appointed by the Miami-Dade County (County) Board of County Commissioners (BCC), pursuant to Chapter 163, Part III, Florida Statutes and Ordinance No.04-124, as amended, in 2004. The Redevelopment Plan was approved on June 22, 2004 (R-780-04).

The boundaries of the Area or Agency include both sides of N.W. 7th Avenue from N.W. 79th Street to N.W. 119th Street and N.W. 135th Street on the west side and NW 143rd Street on the east side to the Golden Glades Interchange (Redevelopment Area). N.W. 7th Avenue, given its strategic location, economic dynamics, access, assets, and motivated business community, is ideally situated to support major business development, new business creation, and emerge as one of the County's most important job growth corridors. (See map on page 3)from 143rd on the east and 135 on the west to golden interchange

The Area is a key location that supports the expansion, creation and diversification of the Miami-Dade County economy. The Agency, which is leading the redevelopment of the N.W. 7th Avenue corridor, has the following economic development goals:

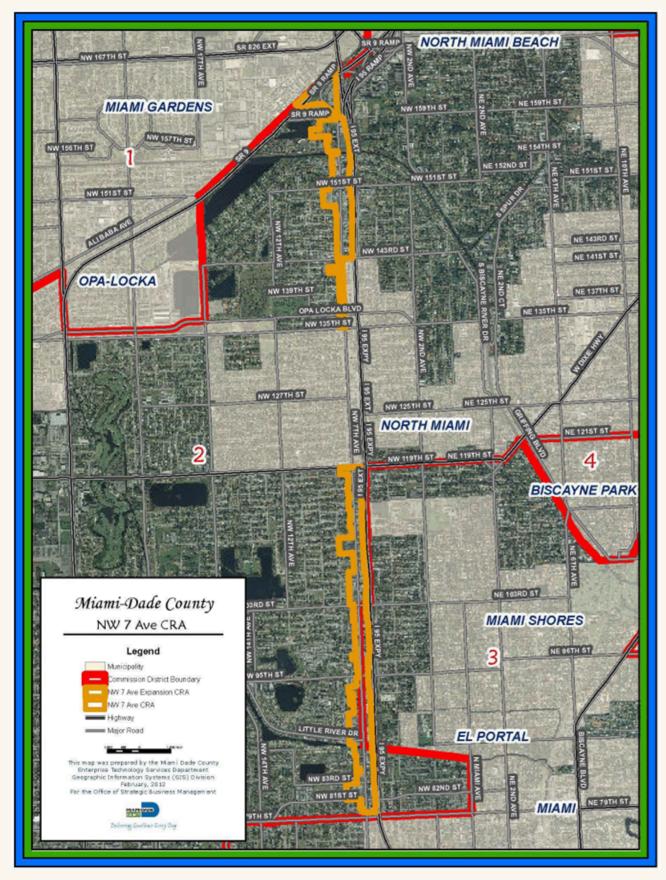

- a. Re-position N.W. 7th Avenue as a major regional employment center;
- b. support the growth and expansion of existing businesses located within the Redevelopment Areas;
- c. support development of new businesses in the Redevelopment Area;
- d. support new job creation, training, and increase employment opportunities for residents of Northwest Miami-Dade County;
- e. support the aspirations of the residents living in the Redevelopment Area to improve home values, safety, and the neighborhood, and;
- f. execute an economic development program that delivers results within its financial means.

#### II. AREA IMPROVEMENT & REDEVELOPMENT GRANT PROGRAMS

This manual is provided to describe the Agency's Area Improvement and Redevelopment (AIRG) grant programs and outline the guidelines to be used for providing assistance to those seeking financial support from the Agency. At the time of application, a business must have been in operation for a minimum of two (2) years. Funds can only be awarded to businesses within the CRA boundaries and can only be expended to benefit projects located within these boundaries. Grant awards are contingent upon a demonstrated benefit to the Area, are awarded in compliance with the Agency's Redevelopment Plan, and may require an in-person presentation to the Agency's Board of Commissioners. The grants program will evolve as the CRA identifies additional areas where funding support may be necessary for local businesses.

The Agency's grants are designed to support the economic and financial well-being of the Area through the expansion and creation of businesses, removal of blighted areas, creation and maintenance of affordable housing, and support services to the businesses and residents within the Area. The Agency's grant funding is reimbursement-based and contingent upon the availability of funding in the Agency's budget. The primary goal of the grant programs is to create positive change within the area through improvements of businesses, infrastructure and structures. Preference for funding will be awarded on a first-come, first-served basis and will be provided to applicants who can demonstrate that funding will:

- Help eliminate or reduce blighted conditions;
- help businesses expand sales revenue, improve competitiveness or enter new markets;
- create additional affordable housing units within the boundaries of the Redevelopment Area;
- provide new or expand services deemed needed for low- and very low-income persons in the Redevelopment Area; and/or
- be used to leverage other funds to expand or increase the overall size of the project proposed by the applicant.

The N.W. 7th Avenue CRA grant programs are available to applicants with properties located, or relocating, within the N.W. 7th Avenue CRA Redevelopment Area (two orange areas).

The term "related to" includes the following:

- E. The Grants Administrator shall review applications, attachments, make recommendations for acceptance or rejection of the applications, and provide continuity for applicant inquiries. The staff may consider several factors, including but not limited to: completeness of the application, length of time the business has been in operation, location of the business, type of business, continuity of ownership, benefit to the community, number of employees, and the level of assistance requested as it relates to the limited amount of Agency funds available, when making recommendations for funding.

- F. Each application package will be evaluated by the Agency for: 1) completeness; 2) conformance with the objectives of the Grant program; and 3) the economic impact of the use of the funds proposed by the organization. The Agency reserves flexibility in its evaluation of grant applications. Preference will be given to organizations addressing the Agency's areas of interest and the Agency's program objectives.
- G. The Agency encourages businesses to use the grant funds to leverage and increase the total amount of funds to be invested leveraging either investor funding, additional grants, or debt to increase the size, value, and impact of the total investment proposed using the Agency's funds. Businesses are urged to contact their financial institution to discuss how the grant funds can be used to leverage a more significant investment in their business.
- H. As a condition for funding, successful applicants may be required to provide oral updates directly to the Agency or through the Grants Administrator.

#### XII. PAYMENT PROCESS & PAYMENT CONDITIONS

The grant payment process is detailed below and the executed Agreement, between the Agency and the successful applicant (grantee), will serve as the "Contract" for the purpose of the grant program. Please note that grant payments are made on a reimbursement-basis or on behalf of an approved grantee through the Grants Administrator.

- A. Any work which is commenced, or equipment purchased, prior to approval and execution of a CRA grant award, will not be eligible for reimbursement under the Agreement.
- B. The owner must receive three (3) formal written quotes from eligible licensed contractors. The Grants Administrator will review all quotes provided by the organization, for reasonableness of cost, prior to the business/owner entering into a contract for the work to be performed. If the cost of the total job is less than \$5,000, and the installation is provided by the vendor (i.e., windows or awnings), only one written quote is necessary. All contractors must have a valid General or Building contractor's license (Class A or B) as per Florida Statute 489, part 1, Department of Business and Professional Regulation (DBPR).
- C. Construction must start within ninety (60) days of design approval and be completed within one hundred eighty (180) days of the start of construction. If construction or improvements are delayed, the grantee must contact the Grants Administrator. If a request for a grant extension is needed, the request must be made to the Grants Administrator two (2) months prior to its expiration.
- D. If an extension for longer than six (6) months is needed, the Grants Administrator will forward the request and sufficient justification to the Agency for their approval.
- E. If the scope of a project requires revision, the organization must inform the Grants Administrator to determine if the revision will fall within the approved grant program guidelines. If so, the Grants Administrator shall inform staff and the Agency in writing and seek prior approval.
- F. Businesses using funds for construction or rehabilitation must comply with all requirements of the County for obtaining building permits, sign permits, electrical permits, or any other related permits. Work of any kind started without proper permits, required sealed plans (any structural improvements require sealed plans) and specifications, if applicable, will not be eligible for assistance and will not be reimbursed.
- G. Construction contracts lasting less than three weeks in duration will be paid by a lump sum at the end of the contract upon issuance of the Certificate of Occupancy (if appropriate), final inspection by the Architect and County Building Official, and all release of liens from contractors, sub-contractors and suppliers.
- H. Construction contracts lasting more than three weeks may have progress payments for the eligible program costs, at the request of the owner, at two week intervals with the final payment to be made upon issuance of the Certificate of Occupancy, final inspection by the Architect and County Building Official, receipt of all labor standards documentation, and all release of liens from contractors, sub-contractors and suppliers.
- I. Businesses must document the expenditure of their match before any funds are released by the Agency. With prior approval of the Agency, the agreement between the Agency and the business may allow for the Agency to fund allowable expenses of an approved invoice on a reimbursement basis, not to exceed the funding limits of the approved grant. Requests for reimbursement of construction costs will be reviewed only as a complete package. Any costs not included in a request for reimbursement will not be considered.

As illustrative, documentation required with an application for payment of renovation construction costs includes:

- Cancelled checks
- Detailed invoices (quotes, estimates are not acceptable) and paid receipts
- Name, address, telephone number and, if applicable, the contractor, vendor, etc.
- Signed statement attesting to the design and construction costs incurred
- J. The Agency and staff reserve the right to verify all costs associated with design and construction work for which payment is requested.
- K. All change orders must have prior approval from the Grants Administrator and staff, or any costs associated with the change order will be disallowed.
- L. All checks for reimbursement will be issued through the Grants Administrator unless provided for differently between the Agency, the Grants Administrator and the grantee. Final payment of the last invoice will be made only after receipt of a final Project Report/Jobs Report and Certificate of Occupancy from the County Building Department (where required) and Certificate of Appropriateness (where required).
- M. Fifteen percent (15%) of the final payment will be withheld until such time as all liens, placed as a result of the project, have been satisfied (i.e., letter of release from the vendor/contractor).

#### XIII. PROGRAM DISCLAIMERS

- A. The Agency, in its sole discretion, reserves the right to reject any and all grant applications, postpone or cancel the Grant program, or waive any irregularities in applications submitted for program grant funding. The Agency, in its sole discretion, reserves the right to request and evaluate additional information from any applicant after the submission deadline as the Agency deems necessary.
- B. Areas not covered in detail in this policy which arise during the application, implementation, or construction phases will be handled as the situation may dictate so as not to impede orderly progress. The Agency shall have the final determination related to interpretations of this policy.
- C. If additional funding is pending from other sources and is required for project completion and that funding is not successful, the Agency reserves the right to withdraw its award.

| Subject: | 2024 Preliminary Tax Roll Values for the NW 7 <sup>th</sup> Avenue Corridor Community Redevelopment Area    |
|          |   |

On July 16, 2024, the Miami-Dade County Property Appraiser released the 2024 Preliminary Tax Roll values. As noted in the table below, the NW 7<sup>th</sup> Avenue Corridor Community Redevelopment Area (area) experienced a healthy growth in taxable values over the 2023 Preliminary Roll. For Fiscal Year 2024-25, the taxable value growth in the original area increased 5.13 percent and the growth in the expansion area increased 10.9 percent.

| Area              | 2023 Roll     | 2024 Roll     | Growth     | Percentage<br>Growth |
|-------------------|---------------|---------------|------------|----------------------|
| Original Area     | \$239,421,621 | \$251,726,969 | 12,305,348 | 5.13 Percent         |
| Expansion<br>Area | \$90,261,820  | \$100,165,590 | 9,903,770  | 10.9 Percent         |

The revenue deposited into the NW 7<sup>th</sup> Avenue Corridor Community Redevelopment Agency's (Agency) trust fund is calculated based on the incremental growth of ad valorem revenues beyond the established base year. As noted in the table below, the base year for the original area is 2003 while the base year for the expansion area is 2012. The increment value is the difference between the base year and current year taxable values.

|                | Base Year<br>Roll | 2024 Roll     | Increment<br>Value | Percentage<br>Growth |
|----------------|-------------------|---------------|--------------------|----------------------|
| Original Area  | \$54,233,325      | \$251,726,969 | \$197,493,644      | 364.4 Percent        |
| Expansion Area | \$48,055,633      | \$100,165,590 | \$52,109,957       | 108.5 Percent        |

The revenue deposited into the Agency's trust fund is based on the increment value multiplied by the millage rate for each taxing authority required to contribute to the trust fund. In the case of the Agency, both countywide and Unincorporated Municipal Service Area (UMSA) revenues are deposited, which are based on the millage rate adopted by the Miami-Dade County Board of County Commissioners. The revenue deposited into the Agency's trust fund for FY 2024-25 is detailed in the table below. The revenue is based on the 2024 adopted millage rates of 1.9090 for UMSA and 4.5740 for countywide.

|                | UMSA      | Countywide  | Total       |
|----------------|-----------|-------------|-------------|
| Original Area  | \$354,773 | \$849,960   | \$1,204,733 |
| Expansion Area | \$94,265  | \$225,854   | \$320,119   |
| Total          | \$449,038 | \$1,075,814 | \$1,524,852 |

Should we move higher ranking Priority 2 midterms actions into Priority 1?

Do you agree with focusing on developer outreach, zoning and business outreach as targeted priorities for year one?

Should we move land acquisition and real estate analysis to year one?

Should we focus on a strategy to connect key parcels to water and sewer as an infrastructure incentive for redevelopment?
