Emergency Management

The Department of Emergency Management (DEM) supports the community's disaster prevention, protection, response, recovery, and mitigation needs through the coordination of information and resources. Additionally, DEM manages the County's Emergency Operations Center (EOC), which develops and coordinates emergency response and recovery plans, and supports key decisions and operations to maximize the use of available resources within Miami-Dade County. Through a "whole communities" approach, DEM collaborates with federal and state agencies, County departments, local municipalities, the private sector, faith-based communities, and not-for-profit organizations to accomplish its mission.

DEM's responsibilities under the Public Safety strategic area include domestic preparedness, emergency evacuation assistance, and coordination of health and medical needs arising from natural, technological, and human-generated disasters. Incidents such as chemical, biological, radiological, nuclear and explosive emergencies, and other events such as cyber-attacks, require sound preparation and preventative measures. Extreme conditions such as hurricanes, tornados, flooding, heat, and cold weather emergencies demonstrate the need for mitigation, resilience, and coordinated response efforts. To mitigate these events, DEM maintains and implements Miami-Dade County's Comprehensive Emergency Management Plan (CEMP), Continuity of Operations plans (COOP), Continuity of Government (COG) plan and the Local Mitigation Strategy (LMS) in compliance with federal, state, and local requirements. DEM also engages with the community to assist in disaster response and recovery by conducting community outreach programs, coordinating disaster volunteers, and managing the Community Emergency Response Team (CERT) and Citizens Corps.

The Department is also charged with information gathering and is responsible for delivering accurate and effective messaging to the citizens of Miami-Dade County. DEM participates in the Regional Domestic Securities Task Force (RDSTF) and the Urban Area Work Group (UAWG) and receives intelligence from Homeland Security, Fusion Centers, and the National Weather Service. Public information is provided through press releases, social media, reverse 911, and communications platforms such as Wireless Emergency Alerts (WEA) and the Integrated Public Alert System (IPAWS). To meet its mission objectives, the Department of Emergency Management requires sound plans, governmental and non-governmental partnerships, community engagement, readiness initiatives, and reliable information sharing.

FY 2024-25 Proposed Operating Budget

Expenditures by Activity

(dollars in thousands)
