MIAMI-DADE COUNTY DEPARTMENT OF TRANSPORTATION AND PUBLIC WORKS (DTPW)

METROMOVER COMPREHENSIVE WAYSIDE SYSTEM OVERHAUL PROJECT (METROMOVER UPGRADE PROJECT)

DESCRIPTION

The upgrade project includes upgrades to the operating system, guideway electrical components and overhaul of the track switches and a complete overhaul of the central control center.

SCHEDULE

Design work began in May 2021. Construction activities will begin in late July 2022 and scheduled to be completed in 2025.

FUNDING

The \$150 million investment consists of People Transportation Plan and Federal Transit Administration funds.

BENEFITS

The upgrade project will:

- Improve system reliability that will reduce service disruptions
- Increase vehicle frequency which will reduce wait times for riders
- Reduce maintenance costs and extend the system's lifespan by thirty years
- Increase the flexibility of routes to meet service demands and get riders to their final destination quicker.
